## **“Improving Education - Improving Life”**

*Partnership building seminar*

*19-27.07.2015, Luxembourg*

From 19<sup>th</sup> until the 27<sup>th</sup> of July 2015 is taking place a Partnership Building Seminar, organized by L'asso asbl in the frames of the Erasmus+ educational program.

Representatives from partner organisations from Estonia, Macedonia, Poland and Luxembourg will come together to Luxembourg for 5 days in order to launch a long-term strategic partnership project that will last for the 18 months.

The idea behind this project originates from the need, identified by all the participating NGOs from all over Europe to promote young people's social inclusion, as well as combat the issue of unemployment. We aim to achieve this through the innovative methodology of non-formal education that will be developed through this project.

During this seminar, the partners will plan the whole project implementation, exchange the good practices and build a stronger connections of successful cooperation. Anyone interested to meet the participants is welcome to contact us.

The project is financed in the frames of the educational program of the European Commission, called Erasmus+ ([http://eacea.ec.europa.eu/erasmus-plus\\_en](http://eacea.ec.europa.eu/erasmus-plus_en))
