

Press release

“Improving Education - Improving Life”

Training Course

2-9.12.2015, Luxembourg

From 2nd until the 9th of December 2015 is taking place an International Training Course, organized by L'asso asbl in the frames of the Erasmus+ educational program.

Youth workers and youth leaders from NGOs from Estonia, Macedonia, Poland and Luxembourg will come together to Luxembourg city for 7 days training in order to improve their competences in the field of social inclusion and get concrete tools and methodologies that will help them to combat youth unemployment. We aim to achieve this through the innovative methodology of non-formal education that is being developed through this project.

The training will be also a great chance for an international exchange and the doors of the training will be open for everyone interested to share some informal moments all together.

The project is financed in the frames of the educational program of the European Commission, called Erasmus+ (http://eacea.ec.europa.eu/erasmus-plus_en)
